

INDUSTRY STAKEHOLDER MEETING RECORD

INDUSTRY GROUP: NC DENR Division of Coastal Management

DATE: August 19, 2011

LOCATION: Via telephone

PARTICIPANTS:

<u>Industry Stakeholders</u>	<u>Maritime Strategy Team</u>
Ken Richardson, DENR DCM	Chris Mack, AECOM
John Nickerson, DENR DCM	

A telephone conversation was held with Ken Richardson, GIS Analyst at NC DENR DCM on August 19, 2011. The purpose of the discussion was to obtain available information from the DCM Beach, Inlet, and Management Plan (BIMP). DCM provided information on the available GIS data used within the BIMP. Of particular interest were GIS layers of inshore and offshore geology, environmental coverages such as hard bottom, and submerged aquatic vegetation layers.

Mr. Richardson forwarded a digital copy of the BIMP and supporting GIS layers for use in the Maritime Strategy analysis. Mr. Richardson also provided another contact, Mr. John Nickerson, who was contacted separately regarding digital geology information.
